Al and Education: Challenges

Advancing Technology for Humanity

Equity and Access

- **Digital Divide:** widening the gap b/w people from different socioeconomic backgrounds.
- **Resource Disparities:** unequal access to technologyenhanced learning.

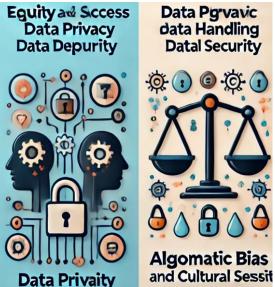

Data Privacy and Security

- **Sensitive Data Handling:** concerns about how data is stored, used, and protected.
- Data Breaches: The risk of unauthorized access to data increases with Al.

Bias and Fairness

- **Algorithmic Bias:** Al systems can perpetuate existing biases in the data they are trained on, leading to unfair outcomes, such as biased grading or assessments.
- **Cultural Sensitivity:** All shall account for cultural differences, potentially leading to content that is inappropriate or irrelevant for certain populations.

Al and Education: Challenges

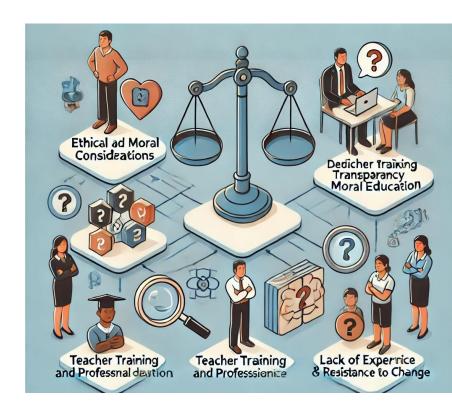

Ethical and Moral Considerations

- Decision-Making Transparency: Al's role in decisions such as grading or student placement raises questions about transparency and accountability.
- Moral Education: As Al's influence grows, understanding its ethical implications becomes increasingly important.

Teacher Training and Professional Development

- Lack of Expertise: Many educators may not have the training needed to effectively integrate AI into their teaching, leading to underutilization or misuse of AI tools.
- Resistance to Change: Teachers may resist adopting Al due to concerns about job displacement or the complexity of new technologies.

Al and Education: Opportunities

Pre-university STEM education programs

IEEE university education programs

IEEE continuing education courses

Al and Education: Opportunities

Machine Learning

IEEE Awareness Module on AI Ethics

Python for Everyone

Sensor Networks for Internet of Things

Introduction to Innovation Management and Intellectual Property

Communication Models and Protocols for IoT Systems

Embedded Systems with Drones

Embedded Linux for IoT Systems

Al Tools for Education

Advancing Technology for Humanity

STUDENT-focused AIED

- ► Intelligent Tutoring Systems (ITS)
- ► Al-assisted Apps (e.g., maths, text-to-speech, language learning)
- ► AI-assisted Simulations (e.g., games-based learning, VR, AR)
- ► AI to Support Learners with Disabilities
- Automatic Essay Writing (AEW)
- Chatbots
- Automatic Formative Assessment (AFA)
- Learning Network Orchestrators
- Dialogue-based Tutoring Systems (DBTS)
- Exploratory Learning Environments (ELE)
- ► Al-assisted Lifelong Learning Assistant

Image: freepik

• • •

Al Tools for Education

TEACHER-focused AIED

- Plagiarism detection
- Smart Curation of Learning Materials
- Classroom Monitoring
- Automatic Summative Assessment
- Al Teaching Assistant (including assessment assistant)
- Classroom Orchestration

• • •

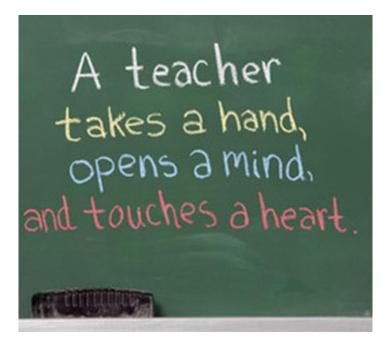

Image: freepik

Al Tools for Education

INSTITUTION-focused AIED

- Admissions (e.g., student selection)
- Course-planning, Scheduling, Timetabling
- School Security
- ► Identifying Dropouts and Students at risk

e-Proctoring

...

Al and Education: Benefits

Personalized Learning

- Adaptive learning platforms
- Real-time feedback and tailored content

Accessibility and Inclusion

- Al tools for students with disabilities
- Language translation and accessibility

Support for Teachers

- Al teaching assistants,
- Automating (administrative) tasks

Cost-Effectiveness and Scalability

- Efficient resource allocation
- Scaling quality education globally

Al and Education: **Benefits**

Continuing Education

- Advancing Technology for Humanity
- 14 YEARS

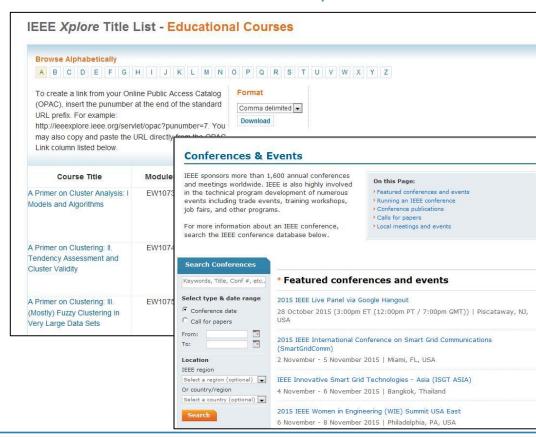

- ► Continuing Education Partners Program
- Discounted Pricing for <u>IEEE Conferences</u> and <u>Events</u>
- Online Training
 - <u>IEEE eLearning Library</u>
 - <u>IEEEx offered by edX</u>
- Earn Continuing Education Units (CEUs) & Professional Development Hours (PDHs)
- ► <u>IEEE.tv Membership Experience Channel</u>
- Social Media

facebook

@IEEExp

Important IEEE Links
